- ▶ **I am an attorney with 35 years of experience practicing law in the City of Syracuse. My family has practiced law here for three generations. I am running to bring honesty, business growth, balance, pragmatism, efficiency and common sense to City Hall.**
- ▶ **We need fiscal honesty and integrity in the City government, economic growth and jobs.**
- ▶ **The infrastructure is in poor repair, our 100 year water system is 125 years old, roads, fire hydrants etc need to be repaired.**
- ▶ **Most importantly, we need economic growth and jobs and a competitive business environment and fiscal honesty and integrity on the Syracuse Common Council.**
- ▶ **The Syracuse Common Council needs to restrict bail reform to jail recidivist criminals.**

JIMMY MONTO, MY OPPONENT

Jimmy Monto owes the State of New York about \$51,433,63 and the Federal Government about \$96,839.00 accumulated over 10 years of unpaid taxes. Monto admitted he falsified business records as part of a tax fraud scheme. Monto was convicted of a misdemeanor. Monto took over his blind grandmothers power of attorney and was sued for fraud because allegedly he gambled and vacationed her money away for her care. He settled for over \$28,000 and confessed to: spending her money on himself and giving his gay lover a sweetheart deal on her house instead of paying her nursing home bill, See my website.

DEMOCRATS

The Democrats simply do not understand business growth development and economics. Other cites have flourished while Syracuse has languished and stagnated. We cannot fill the existing vacancies while other areas grow. Every empty building is lost jobs, growth and income to the area. Look around.

We are in an inflation cycle from Washington while impoverishing every American: the poor and fixed income the most. Has anyones wages inflated to catch this rise?
